

EncoreCX[®] IS NOW

INTER-TEL[®] 3000

The Feature-rich Communications System That Is Easy to Install, Easy to Program and Easy to Use!

Previously known as the EncoreCX, the Inter-Tel 3000 system now features VoIP capability, and can be customized for small business, home-based business or residential customers. And, the system offers a scalable, affordable upgrade path so if your customer needs to add more lines, phones or even new features, Inter-Tel makes it easy as can be.

Inter-Tel 3000 System Features:

- **Modular design for easy installation and maintenance**
- **Optional add-ons including voice mail, VoIP, T1/PRI, door phone and more**
- **Free technical product certification**
